MASTER CHEF + FOOD DESIGNER

Before becoming a Master Chef and Food Designer, Shef Ebony grew up watching her mom and older brothers in the kitchen.

Every weekend her mom took them fishing at Wrightsville Beach in Wilmington, NC. Whatever they caught that day would be dinner that night.

She loved watching her family catch their food, prep it, and then create a feast experience around the dinner table. It taught her how to create delicious and affordable meals, while creating everlasting memories with her family.

Being creative and resourceful has taught her how to use ingredients and various cooking techniques to make magic in the kitchen. She always knew from a young age that she would be in the culinary field. Food has always been Shef Ebony's passion.

That same creativity and resourcefulness is what has allowed Shef Ebony to thrill both corporate clients and new chefs alike. You can usually find her in the kitchen, with some music playing in the background and a glass of merlot in hand.

However, having been intentional with learning both front of house and back of house service as well, has allowed her to provide consulting to corporate companies and mentorship budding chefs.

Being a leader in the culinary industry, Shef Ebony has been highly sought by corporations like IKEA ATLANTA, Cox Media, and Georgia power to name a few, to partner with them to bring extraordinary events to their kitchen or place of business.
